

Brand Kit — Visual Test

All primitives in one page

Sub-streams: substream-eastside-wet-weather, substream-biosolids-outlet

QUALIFICATION GATE — CONDITIONALLY OPEN

Sub-stream A open; sub-stream B closed on stop-flag.

COMPLIANCE & SAFETY — STOP

2 active flags affecting these sub-streams

`csflag-consent-decree-milestones-missed` **STOP** — Annual compliance report not obtained

`csflag-pfas-biosolids-ban-ignored` **STOP** — September outlet cutoff with no documented alternate

Section Header (h2)

Sub-section Header (h3)

Body text in Inter (or Helvetica fallback). Lorem ipsum dolor sit amet, **bold emphasis**, *italic emphasis*, and mono ER-001 inline.

Theme header example (Playbook):

1 Service area, flow, and scale

These define the entire business case.

Why it matters

- Anchors all downstream sizing
- Reveals capacity constraints
- Sets the gate's quantitative criterion

This is not a compliance project — it's a capital programme. Win by anchoring on rate-stability.
